

# Expressions Challenge

Version 3

Name:

Period:

---

## Your Task

Use the numbers 1, 2, 3, 4, 5  
(in decreasing order, each exactly once)

and various math operations  
(+, −, •, ÷, exponents, parentheses, etc.)

to write expressions with the indicated values.

## Example

$$5 + 4 - 3 + 2 \div 1$$

## Round 1

Answers between 1 and 10

1 =

2 =

3 =

4 =

5 =

6 =

7 =

8 =

9 =

10 =

## Round 2

Answers between 11 and 20

11 =

12 =

13 =

14 =

15 =

16 =
